ABOUT ME

Young and dedicated technology enthusiast from Angola with strong practical experience in Flutter, Python, UI/UX analysis, prompt engineering, software architecture, and modern digital solutions.

Experienced in real-world systems involving financial education, transportation platforms, realtime applications, dashboards, and usability-focused solutions.

Creative, adaptable, detail-oriented and passionate about continuous learning, innovation, and solving practical problems through technology.

PROFESSIONAL EXPERIENCE

● Financial Education Apps

Development of modern educational and financial systems.

● Transportation Platforms

Realtime transportation and usability-focused solutions.

● Dashboards & Systems

Modern management dashboards and digital platforms.

● Hilari Tech

Collaboration in software development and technology solutions.

CAREER OBJECTIVE

Seeking international opportunities to contribute with creativity, technical excellence, problem solving and continuous learning in innovative and professional environments.

Creative • Professional • Modern • Technology Driven
